

GI 2010 mSecurity Survey Report

Table of Contents

Methodology.....	
Definition	
Executive Summary.....	
1. Who Took Part	
Sector	
Regions	
Role	
Organisation Size	
1. mSecurity Policy and Regulation.....	
General Information Security Policy and mSecurity Policy	
Information Security Standards and Frameworks	
mSecurity Regulation	
Acceptable Use Policy (AUP)	
Summary	
2. mSecurity Awareness and Concern	
mSecurity Awareness	
Information Security Community	
End-user	
mSecurity Concern	
Summary	
3. mSecurity Education	
Opportunity for Mobile Network Operators	
4. mSecurity Strategy.....	
5. mSecurity Trends	
Procurement – Who is responsible for purchasing smart mobile devices?	
Management and Support	
Resourcing	
Smartphone Adoption	
Tablet Adoption	
Security Ranking of Mobile Platforms	

	Summary
	Detail
	Consumerisation
	Summary
6.	Smart Mobile Devices and Network Access.....
	Local Network Access
	Remote Network Access
	Smartphone Virtual Private Network (VPN) Usage
	Summary
7.	Smart Mobile Devices and Data.....
	Data Storage
	Company-owned devices.....
	Personally-owned devices
	Data Encryption
	Company-owned devices.....
	Personally-owned devices
	Smartphone encryption products and services
	Company-owned devices.....
	Security threats from unauthorised loss of information from smartphones.....
	Summary
	Goode Intelligence threat rating.....
	Current (2010) threat rating
	Short-term future (2010-2012) threat rating.....
8.	Smart Mobile Devices and Voice
	Summary
9.	Mobile (Security) Device Management (MDM/SDM).....
	Summary
10.	The mobile phone as an authentication device.....
	Summary
11.	Mobile Malware (MM).....
	Mobile Anti-Virus Products and Services Adoption
	Mobile Malware Incidents.....
	Mobile Malware Threat Perception.....
	Goode Intelligence threat rating.....
	Current (2010) threat rating

Short-term future (2010-2012) threat rating.....

Summary

12. Mobile Device Anti-Theft Products and Services.....

Summary

13. Summary and Outlook
