Delegate Brochure

OVERVIEW

A highly focused event sharing the latest innovation in biometric technology for leaders in cyber security, biometric technology specialists and prominent members of London's banking and investment community.

The Goode Intelligence Biometric Summit London 2018 brings buyers and suppliers together so you can interact and create lasting business relationships through:

- Workshops
- Presentations from industry experts
- Moderated panels
- Seminars
- One-to-one business meetings
- Valuable networking opportunities

TRACKS

With two distinct, flexible tracks – investor and business – we make it easy for you to make the most effective use of your time in our power-packed afternoon, moving between the tracks as best suits your needs and interests

Business Track

If you're a business leader responsible for biometric technology in your organisation then this is the perfect opportunity for you to connect and network with peers across industries. You'll be able to share your own experiences and discover the key points of deploying biometrics for purposes such as authentication, fraud management and identity verification in your own organisation.

The Summit will equip you with:

- Understanding about the business benefits of deploying biometric technology, backed up with case studies, best practice and regulatory considerations including the impact of GDPR and PSD2
- Insight on how biometric technology can accelerate your digital transformation programme and how you can use this in omni channel digital delivery, including the use of Blockchain and AI
- Information from leading experts in the market about the latest innovation in biometric technology and how deploying it can benefit both your organisation and your products
- Knowledge about the optimum use of biometric technology once you've deployed it

Investor Track

Hailed as being one of the fastest growing markets, biometrics is one of the most innovative areas in technology.

If you're a Fund Manager, Financial Researcher, Investment Banker or Lawyer with interests in emerging technology companies for early-stage private investment, M&A, IPO and institutional investment opportunities then our **Investment Track** is ideal for building knowledge and discovering the latest developments in biometric technology.

With industry attendees representing a mix of companies at various stages of development from private start-ups through to established, listed companies, there will be a number of advice, business acceleration and investment opportunities to explore. You'll also be able to network with:

- Industry analysts, including access to Alan Goode, one of the world's leading authorities on biometrics
- CEOs of technology companies
- End-users and experts to gain insight into what and where they are deploying biometric technology

AGENDA IN BRIEF
