# Report Overview

The third edition of Goode Intelligence's ***Mobile & Wearable Biometric Authentication Market Analysis and Forecasts*** report provides an investigation into the use of biometrics for authentication on smart mobile and wearable devices. This 175 page report is packed full of detail and analysis and includes a review of current global adoption, market analysis including key drivers and barriers for adoption, interviews with leading stakeholders, technology analysis with review of key biometric technologies and profiles of companies supplying biometric systems for mobile & wearable devices.

Forecasts (regional and global) for hardware biometric sensors, biometric software licenses, users by sector and revenue within the six-year period 2017 - 2022.

## Report Contents

- **Executive Summary**
- **Market & Technology Analysis**
  - Definition
  - Mobile & Wearable Ecosystem
  - Market Drivers & Barriers
  - Regulation & Technology Standards
  - Technology & Market Adoption
    - Biometric Authentication
    - Hardware Biometric Sensors
      - Fingerprint
      - Iris
      - Heart (ECG)
    - Software Biometric Technology
      - Behavioral
      - Eye Vein
      - Face
      - Voice
      - Sensorless Fingerprint
  - Vendor Review & Profiles
- **Six Year Forecasts 2017-2022**
  - Global & Regional
  - Device Shipments
    - Smartphone
    - Tablet
    - Wearable
  - Mobile Biometric Hardware Sensor
    - Fingerprint
    - Iris
    - Combined (Fingerprint+Iris)
  - Mobile Biometric Software License
    - Voice
    - Face
    - Eye Vein
    - Behavioral
    - Sensorless Fingerprint
    - Combined
- **Forecasts 2017-2022 (continued)**
  - Mobile Users by Sector
    - Financial
    - Healthcare
    - Enterprise
    - Consumer
  - Revenue
    - Hardware Sensors
      - Fingerprint
      - Iris
      - Combined (Fingerprint+Iris)
    - Software Licenses
      - Voice
      - Face
      - Eye Vein
      - Behavioral
      - Sensorless Fingerprint
      - Software Combined (Total)
  - Wearable Biometric Authentication
    - Total Users
    - Wearable ECG Devices
- **Appendices**
  - Appendix i – Companies referenced

## Who Should Purchase this Report?

This report is aimed at technology vendors, service providers, systems integrators, end users and investors involved in the mobile & wearable biometric authentication market. This includes:

- Biometric Sensor Manufacturers
- Biometric Software Developers
- Hardware component manufacturers supplying the mobile & wearable industry that support biometrics including, LED/IR light components, camera components, voice chips, touchscreens, SIM and secure hardware manufacturers, chip designers and manufacturers
- Mobile & Device manufacturers
- Mobile Network Operators
- Authentication technology vendors and service providers (authentication and identity as a service)
- Cybersecurity technology vendors and service providers
- Systems Integrators and Resellers
- End-users wanting to educate themselves before making strategic decisions to design and deploy biometric authentication technology
- Investors wanting to understand the market and to gain financial insight into the sector

## Key Questions and Topics

This report covers the latest developments in this sector and covers key questions and topics that are a vital for this industry. They include:

- Key trends that are shaping the industry including:
  - The emergence of multi-modal biometric authentication
  - The importance of liveness and anti-spoof technologies and how is this being integrated
  - How new smart mobile device design is affecting hardware biometric sensor design and integration
  - The latest M&A activity
  - Average Selling Price (ASP) for the fingerprint sensor market
- What vertical sectors will be popular for mobile biometric authentication adoption
- Is there a dominant model for deploying mobile-based biometrics?
- When will we see a consumer wearable device that supports biometric authentication?
- Will fingerprint biometrics continue to dominate the market and what is the impact of emerging biometric technologies including iris, face, voice, behavioral and eye vein?

## Companies Referenced in this Report

3M Cogent, Acer, Airwatch, Agnitio, Alcatel, Alibaba, Aoptix, Applied Biometrics, Apple, ARM, Asus, Atheer Labs, ATOS, BehavioSec, BioCatch, Biometrics Signature ID, BlackBerry, BLU, B-Secur, BioConnect, Brighttek, bunq, Cognitec, Coolpad, CrucialTec, Daon, Delta ID, Diamond Fortress Technologies, Digital Insight, EBA, Egis Technology, EMVCo, Encap Security, Entrust, Epileds, Epistar, EyeLock, EyeVerify, Gionee, Fingerprint Cards, FingerQ, FlexEnable, FotoNation, Foxconn, Fujitsu, Fulcrum Biometrics, Gemalto, Goodix, Good Technology, Google, GSMA, Halifax Bank, Hisense, HP, HSBC, HTC, Huawei, HYPR, IDair, IDEX, iProov, IriTech, ISORG, LeEco, Lenovo, LG, KeyLemon, Kyocera, Meizu, Micromax, Microsoft, MobileIron, M2SYS, Nationwide Building Society, Nuance Communications, NeuroSky, NexID Biometrics, Nymi, Nok Nok Labs, NTT DOCOMO, OnePlus, Oppo, OSRAM, OXI Technology, Qihoo 360, Pantech, Precise Biometrics, Princeton Identity, Qualcomm, Royal Bank of Canada, RSA, Samsung, Safran Morpho, Sciometrics, Sensory Inc., Silead, Sharp, Sony, Sonavation, SRI International, STMicroelectronics, Synaptics, Tangerine, Tascent, TCL, The FIDO Alliance, USAA, VASCO, Veridium, Vivo, Vishay, Vkansee, VoiceTrust, VoiceVault, Wells Fargo, Xiaomi, ZTE, ZUK

## Pricing

**\$5,000.00 for an unlimited-use enterprise license**
