 - Regional Definitions
- Executive Summary
 - ES1: Report Scope
 - ES2: Market and Technology Analysis
 - ES2.2: How is Biometrics used in Banking
 - ES2.2.1: How Can Banks Measure Biometric Technology? A Guide to Choosing the Right Biometric System
 - ES2.3: Market Drivers and Barriers
 - ES2.3.1: Market Drivers
 - ES2.3.2: Market Barriers
 - ES2.4: Banking Biometric Regulation and Technology Standards
 - ES2.4.1: Regulation
 - ES2.4.2: Industry Regulation / Guidelines
 - ES2.4.3: Technology Standards
 - ES2.5 Technology and Market Adoption
 - ES2.5.1: Market Adoption and Analysis
 - ES2.5.1.1: Biometrics for Banking
 - ES2.5.1.2: Biometrics in the Bank Branch
 - ES2.5.1.3: Biometrics for Electronic Banking (web-based)
 - ES2.5.1.4: Biometrics and Identity Verification – Proofing
 - ES2.5.1.5: Biometrics for Telephone Banking (Contact Centre)
 - ES2.5.1.6: Biometrics for Mobile Banking
 - ES2.5.1.7: Biometrics for ATMs
 - ES2.6: Biometric Technology – Analysis and Vendors
 - ES2.6.1: Behavioral Biometrics
 - ES2.6.1.1: Advantages and Disadvantages of Behavioral Biometrics
 - ES2.6.2: Eye Biometrics
 - ES 2.6.2.1 Iris
 - ES 2.6.2.1.1 Advantages and Disadvantages of Iris Biometrics
 - ES2.6.3: Face Biometrics

Table of Contents

- ES2.6.3.1 Advantages and Disadvantages of Face Biometrics
 - ES2.6.4: Fingerprint Biometrics
 - ES2.6.4.1 Advantages and Disadvantages of Fingerprint Biometrics
 - ES2.6.5: Heart (ECG)
 - ES2.6.5.1: Advantages and Disadvantages of Heart Biometrics
 - ES2.6.6: Voice Biometrics
 - ES2.6.6.1: Advantages and Disadvantages of Voice Biometrics
 - ES2.6.7: Finger-Vein Biometrics
 - ES2.6.7.1: Advantages and Disadvantages of Finger-Vein Biometrics
 - ES2.6.8: Palm-Vein Biometrics
 - ES2.6.8.1: Advantages and Disadvantages of Palm-Vein Biometrics
 - ES2.6.9: Palmprint Biometrics
 - ES2.6.9.1: Advantages and Disadvantages of Palmprint Biometrics
- ES3: Forecasts
 - ES3.1 Methodology and Assumptions
 - ES3.2 Biometrics for Banking Forecasts
 - ES3.2.1 Introduction
 - ES3.2.2 Biometrics for Banking User Forecasts
 - ES3.2.2.1 Biometrics for Banking User Forecasts – By Technology
 - ES3.2.2.2 Biometrics for Banking User Forecasts – By Bank Channel (Service)
 - ES3.2.3 Biometrics for Banking Revenue Forecasts
 - ES3.2.3.1 Biometrics for Banking Revenue Forecasts – By Technology
- ES4: Conclusion
- Market and Technology Analysis
 - Introduction
 - How is Biometrics used in Banking
 - How Can Banks Measure Biometric Technology? A Guide to Choosing the Right Biometric System
 - Introduction
 - Biometric Performance
 - Usability

Table of Contents

- Security
- Banking Regulation
- Market Drivers and Barriers
- Banking Biometric Regulation and Technology Standards
 - Introduction
 - Regulation
 - State and Federal Regulation
 - European Union (EU) General Data Protection Regulation (GDPR)
 - European Union Payment Services Directive (PSD2)
 - Anti-Money Laundering (AML) and Know Your Customer (KYC) Regulation
 - Industry Regulation / Guidelines
 - USA FFIEC
 - Bank of Korea
 - Technology Standards
 - Introduction
 - ISO
 - ANSI
 - UK CESG
 - USA NIST
 - The FIDO Alliance
- Technology and Market Adoption
 - Market Adoption and Analysis
 - Biometrics For Banking
 - Biometric Architecture
 - Introduction
 - Device-Based (local) Biometric Models
 - Introduction
 - FIDO
 - OEM-specific
 - Sovereign Identity
 - Merits & Disadvantages
 - Deployment examples & key vendors
 - Adoption including percentage of Biometrics Banking Market (separate figures for FIDO)
 - Cloud-Based Biometric Models
 - Introduction
 - Biometric Identity as a Service (BIDaaS)
 - Merits & Disadvantages

Biometrics for Banking

Market & Technology Analysis, Adoption Strategies and Forecasts 2018-2023

Table of Contents

- Deployment examples & key vendors
- Adoption including percentage of Biometrics Banking Market
- Biometrics in the Bank Branch
 - Introduction
 - Biometrics Supporting the Digital Bank Branch – Self-Service Banking
 - Employee biometric authentication
 - Al Rajhi Bank of Saudi Arabia rolls out Biometric-Enabled Self-Service Solution
- Biometrics for Electronic Banking – Web-Based Banking
 - Introduction
 - Biometrics and Anti-Fraud Solutions
 - Biometrics and Identity Verification
 - Biometrics and Online Authentication
 - Barclays Supports Finger Vein Biometrics from Hitachi for eBanking
 - RSA’s Adaptive Authentication Risk-Based Authentication Solution leverages Mobile-Based Biometrics for Step-Up Authentication
- Biometrics for Telephone Banking / Contact Centre – Featuring IoT Smart Speaker Banking
 - Introduction
 - Barclays Bank streamlines telephone banking service by adopting voice biometrics
 - IoT Banking In the Home – Daon Enables Secure Biometrics for Amazon’s Alexa
- Biometrics for Mobile Banking – Featuring Wearables
 - Introduction
 - Wearable Devices
 - Apple Touch ID and Face ID – Allowing Banks to Support Mobile Biometrics
 - USAA Mobile Multi-Modal Biometrics Banking App – Results of Daon’s IdentityX Deployment
- Biometrics for ATM
 - Introduction
 - Cash
 - Biometric Technology Integrated into ATM
 - Biometric Technology Integrated into Separate Technology for use at ATM
 - Biometric Technology Integrated into Bank Card

Table of Contents

- Bitcoin ATMs
 - Introduction
- Biometric Technology – Analysis and Vendors
 - Introduction
 - Behavioral Biometrics
 - Introduction
 - Technology Vendors and Service Providers
 - BehavioSec
 - Biometric Signature ID
 - BioCatch
 - TypingDNA
 - Pricing
 - Advantages and Disadvantages of Behavioral Biometrics
 - Eye (Ocular) Biometrics
 - Introduction
 - Iris
 - Introduction
 - Technology Vendors and Service Providers
 - Eyelock
 - Fotonation / Smart Sensors
 - Fingerprint Cards – Activelris
 - Princeton Identity
 - Nok Nok Labs
 - Advantages and Disadvantages of Iris Biometrics
 - Face
 - Introduction
 - Technology Vendors and Service Providers
 - Applied Recognition
 - Identity Verification – Applied Recognition
 - KeyLemon
 - iProov
 - SmilePass
 - Daon
 - AimBrain
 - Advantages and Disadvantages of Face Biometrics
 - Fingerprint
 - Introduction
 - Technology Vendors and Service Providers –Fingerprint Sensor Manufacturers and Authentication Integrators
 - Fingerprint Cards

Biometrics for Banking

Market & Technology Analysis, Adoption Strategies and Forecasts 2018-2023

Table of Contents

- IDEX
- HID Global Lumidigm
- NEXT Biometrics
- Sonavation
- Qualcomm
- Synaptics Biometrics Product Division
- BIO-key
- Zwipe
- Advantages and Disadvantages of Fingerprint Biometrics (Sensors)
- Camera-Based Fingerprint Biometrics – Touchless
- Technology Vendors and Service Providers – Touchless Fingerprint Biometrics
 - Diamond Fortress Technologies
 - IDair
 - Veridium
- Advantages and Disadvantages of Sensorless Fingerprint Biometrics
- Heart - ECG
 - The Nymi Band
 - B-Secur
 - Advantages and Disadvantages of Heart Biometrics
- Voice
 - Introduction
 - Technology Vendors and Service Providers
 - Nice
 - Nuance
 - VoiceVault
 - VoiceTrust
 - Advantages and Disadvantages of Voice Biometrics
- Finger Vein
 - Introduction
 - Technology Vendors and Service Providers
 - Hitachi
 - Sthaler
 - Advantages and Disadvantages of Finger-Vein Biometrics
- Palm-Vein
 - Introduction
 - Fujitsu

Table of Contents

- Advantages and Disadvantages of Palm-Vein Biometrics
 - Palmprint
 - Introduction
 - Redrock Biometrics
 - Advantages and Disadvantages of Palmprint Biometrics
- Forecasts
 - Methodology and Assumptions
 - Biometrics for Banking Forecasts
 - Introduction
 - Biometrics for Banking User Forecasts
 - Biometrics for Banking User Forecasts – By technology
 - Biometrics for Banking User Forecasts - Fingerprint
 - Biometrics for Banking User Forecasts – Voice
 - Biometrics for Banking User Forecasts – Iris
 - Biometrics for Banking User Forecasts – Behavioral
 - Biometrics for Banking User Forecasts- Finger-Vein
 - Biometrics for Banking User Forecasts – Palm-Vein
 - Biometrics for Banking User Forecasts – Palmprint
 - Biometrics for Banking User Forecasts – Heart (ECG)
 - Biometrics for Banking User Forecasts – Face
 - Biometrics For Banking User Forecasts – By bank Channel (Service)
 - Biometrics for Banking User Forecasts – by Bank Channel: Branch
 - Biometrics for Banking User Forecasts – by Bank Channel: Electronic Banking (web-based)
 - Biometrics for Banking User Forecasts – by Bank Channel: Telephone (Contact Centre)
 - Biometrics for Banking User Forecasts – by Bank Channel: Mobile
 - Biometrics for Banking User Forecasts – by Bank Channel: IoT
 - Biometrics for Banking User Forecasts – by Bank Channel: ATM

Biometrics for Banking

Market & Technology Analysis, Adoption Strategies and Forecasts 2018-2023

Table of Contents

- Biometrics for Banking Device Forecasts – by Bank Channel: ATM
- Biometrics for Banking User Forecasts – by technology: Biometric Identity Verification for Banking & FinTech – Biometric eIDV
- Biometrics for Banking User Forecasts – by architecture: Device-based biometrics (includes FIDO and other decentralized authentication models)
- Biometrics for Banking User Forecasts – by architecture: Cloud-based biometrics (includes biometric identity as a service BIDaaS)
- Biometrics for Banking User Forecasts – by technology: Combined
- Biometrics for Banking Revenue Forecasts
 - Assumptions on revenue forecasts
 - Biometrics for Banking Revenue Forecasts – by Technology: Fingerprint
 - Biometrics for Banking Revenue Forecasts – by Technology: Voice
 - Biometrics for Banking Revenue Forecasts – by Technology: Iris
 - Biometrics for Banking Revenue Forecasts – by Technology: Behavioral
 - Biometrics for Banking Revenue Forecasts – by Technology: Finger-Vein
 - Biometrics for Banking Revenue Forecasts – by Technology: Palm-Vein
 - Biometrics for Banking Revenue Forecasts – by Technology: Heart
 - Biometrics for Banking Revenue Forecasts – by Technology: Palmprint
 - Biometrics for Banking Revenue Forecasts – by Technology: Face
 - Biometrics for Banking Revenue Forecasts – by Technology: Combined
 - Biometrics for Banking Revenue Forecasts – by architecture: Device-based biometrics (includes FIDO and other decentralized authentication models)

Biometrics for Banking

Market & Technology Analysis, Adoption Strategies and Forecasts 2018-2023

Table of Contents

- Biometrics for Banking Revenue Forecasts – by architecture: Cloud-based biometrics (includes biometric identity as a service BIDaaS)
- Biometrics for Banking Revenue Forecasts – by Application: Identity Verification (onboarding)
- Appendices
 - Appendix A: Organisations referenced in this report
