YOUR PARTNER FOR BUSINESS RESEARCH & ANALYSIS

Mobile Biometrics for Financial Services

**Market & Technology Analysis
Adoption Strategies & Forecasts
2018-2023 Second Edition**

Table of Contents

www.goodeintelligence.com

Forward**Goode Intelligence****Author****Goode Intelligence Methodology****Regional Definitions****Executive Summary**

ES1: Report Scope

ES2: Market and Technology Analysis

ES2.3: Market Drivers and Barriers

ES2.3.1: Market Drivers

ES2.3.2: Market Barriers

ES2.4: Financial Services Biometric Regulation and Technology Standards

ES2.4.1: Regulation

ES2.4.2: Industry Regulation / Guidelines

ES2.4.3: Technology Standards

ES2.5 Technology and Market Adoption

ES2.5.1: Market Adoption and Analysis

ES2.5.1.1: Mobile Biometrics for Banking

ES2.5.1.1: Mobile Biometrics for Payments

ES2.6: Biometric Technology – Analysis and Vendors

ES2.6.1: Behavioral Biometrics

ES2.6.1.1: Advantages and Disadvantages of Behavioral Biometrics

ES2.6.2: Eye Biometrics

ES 2.6.2.1 Iris

ES 2.6.2.1.1 Advantages and Disadvantages of Iris Biometrics

ES2.6.3: Face Biometrics

ES2.6.3.1 Advantages and Disadvantages of Face Biometrics

ES2.6.4: Fingerprint Biometrics

ES2.6.4.1 Advantages and Disadvantages of Fingerprint Biometrics

ES2.6.5: Voice Biometrics

ES2.6.5.1 Advantages and Disadvantages of Voice Biometrics

ES2.6.6: Palmprint Biometrics

ES2.6.6.1 Advantages and Disadvantages of Palmprint Biometrics

ES3: Forecasts

ES3.1 Methodology and Assumptions

ES3.2 Mobile Biometrics for Financial Services Forecasts

ES3.2.1 Introduction

ES3.2.2 Mobile Biometrics for Financial Services User Forecasts

ES3.2.2.1 Mobile Biometrics for Financial Services User Forecasts – By Technology (modality)

ES3.2.2.2 Mobile Biometrics for Financial Services User Forecasts – By Technology: Mobile Biometric Identity Verification for Financial Services – Biometric eIDV

ES3.2.2.3 Mobile Biometrics for Financial Services User Forecasts – By Type

ES3.2.3 Mobile Biometrics for Financial Services Revenue Forecasts

ES3.2.3.1 Mobile Biometrics for Financial Services Revenue Forecasts – By Technology

ES3.2.4 Mobile Biometrics for Payment Transaction Volume and Transaction Value Forecasts

ES4: Conclusion

Market and Technology Analysis

Introduction

Market Drivers and Barriers

Market Drivers

Market Barriers

Financial Services Biometric Regulation and Technology Standards

Introduction

Regulation

State and Federal Regulation

European Union (EU) General Data Protection Regulation (GDPR)

European Union Payment Services Directive (PSD2)

Anti-Money Laundering (AML) and Know Your Customer (KYC) Regulation

Industry Regulation / Guidelines

PCI-DSS

USA FFIEC

US Economic Growth, Regulatory Relief, and Consumer Protection ACT - MOBILE

EMV

EMV 3D Secure

Bank of Korea

Bank of China

Hong Kong – The Office of the Privacy Commissioner for Personal

Data

Technology Standards

Introduction

ISO

ANSI

UK CESG

The FIDO Alliance

Technology and Market Adoption

Market Adoption and Analysis

Mobile Biometrics For Banking

Introduction

Mobile Biometric Architecture For Banking

Introduction

Device-Based (local) Biometric Models

Cloud-Based Biometric Models

Biometrics for Electronic Banking – Web-Based Banking

Introduction

Biometric Step-Up Verification for 3D Secure with RSA
Adaptive Authentication

Biometrics and Identity Verification

Mobile Biometrics for Telephone Banking / Contact
Centre

Introduction

Barclays Bank streamlines telephone banking
service by adopting voice biometrics

Apple Touch ID and Face ID – Allowing Banks
to Support Mobile Biometrics

USAA Mobile Multi-Modal Biometrics Banking
App – Results of Daon's IdentityX Deployment

Biometric Technology Integrated into Separate
Technology for use at ATM

Mobile Biometrics for Payments

Introduction

Smart Mobile Device OEMs and Platforms

Card Schemes

eCommerce Payment Providers

Mobile Network Operators – Direct Carrier Billing

Biometric Technology – Analysis and Vendors

Introduction

Behavioral Biometrics

Introduction

Technology Vendors and Service Providers

BehavioSec

Biometric Signature ID

BioCatch

TypingDNA

Pricing

SecuredTouch

Advantages and Disadvantages of Behavioral Biometrics

Eye (Ocular) Biometrics

Introduction

Iris

Introduction

Technology Vendors and Service Providers

Eyelock

Fotonation / Smart Sensors

Fingerprint Cards – ActiveIris

Princeton Identity

Nok Nok Labs

Advantages and Disadvantages of Iris Biometrics

Face

Introduction

Technology Vendors and Service Providers

Applied Recognition

Identity Verification – Applied Recognition

KeyLemon

Iproof

SmilePass

Daon

AimBrain

IDEMIA

Advantages and Disadvantages of Face Biometrics

Fingerprint

Introduction

Technology Vendors and Service Providers –Fingerprint Sensor
Manufacturers and Authentication Integrators

Fingerprint Cards

Sonavation

Qualcomm

Synaptics Biometrics Product Division

Advantages and Disadvantages of Fingerprint Biometrics (Sensors)

Camera-Based Fingerprint Biometrics – Touchless

Technology Vendors and Service Providers – Touchless
Fingerprint Biometrics

Diamond Fortress Technologies

Veridium

Advantages and Disadvantages of Sensorless Fingerprint
Biometrics

Voice

Introduction

Technology Vendors and Service Providers

ID R&D

Mobile Biometrics for Financial Services Forecasts

Introduction

Mobile Biometrics for Financial Services User Forecasts

Mobile Biometrics for Financial Services User Forecasts – By
Technology

Mobile Biometrics for Financial services User Forecasts – by
technology: Fingerprint

Mobile Biometrics for Financial Services User Forecasts – by
technology: Voice

Mobile Biometrics for Financial Services User Forecasts – by
technology: Iris

Mobile Biometrics for Financial Services User Forecasts – by
technology: Behavioral

Mobile Biometrics for Financial Services User Forecasts – by
technology: Face

Biometrics for Payments User Forecasts – by technology:
Palmprint

Mobile Biometrics For Financial Services User Forecasts – By Type

Mobile Biometrics For Financial Services User Forecasts – By
Type: Banking

Mobile Biometrics for Financial Services

Market & Technology Analysis, Adoption Strategies and Forecasts 2018-2023

Mobile Biometrics For Financial Services User Forecasts – By
Type: Payments

Mobile Biometrics For Financial Services User Forecasts – By
Type: Local Payments

Mobile Biometrics For Financial Services User Forecasts – By
Type: Remote Payments

Mobile Biometrics For Financial Services User Forecasts – By
Type: Combined (Local and Remote)

Mobile Biometrics For Financial Services User Forecasts – By Type:
Combined

Biometrics for Payments User Forecasts – by technology: Mobile
Biometric Identity Verification for Financial Services – Biometric eIDV

Mobile Biometrics For Financial Services Revenue Forecasts

Assumptions on revenue forecasts

Mobile Biometrics for Financial Services Revenue Forecasts – by
Technology: Fingerprint

Mobile Biometrics for Financial Services Revenue Forecasts – by
Technology: Voice

Mobile Biometrics for Financial Services Revenue Forecasts – by
Technology: Iris

Mobile Biometrics for Financial Services Revenue Forecasts – by
Technology: Behavioral

Mobile Biometrics for Financial Services Revenue Forecasts – by
Technology: Face

Mobile Biometrics for Financial Services Revenue Forecasts – by
Technology: Palmprint

Mobile Biometrics for Financial Services Revenue Forecasts – Mobile
eIDV for Financial Services

Mobile Biometrics for Financial Services Revenue Forecasts –
Combined

Mobile Biometrics for Payment Transaction & Transaction Value Forecasts

Assumptions on Transaction & Transaction Value forecasts

Mobile Biometrics for Payments Transaction Forecasts – Total
Transactions

Mobile Biometrics for Payments Transaction Forecasts – Total Value
