Regional Definitions

## Executive Summary

ES1: Report Scope

ES2: How are Biometrics used For Payments

ES3: Forecasts

ES3.1 Methodology and Assumptions

ES3.2 Biometric Payments Forecasts

ES3.2.1 Introduction

ES3.2.2 Biometric Payments User Forecasts – By Payment Process

ES3.2.3 Biometric Payments Forecasts – By Biometric Modality

ES3.2.4 Biometric Payments Forecasts – By Device

ES3.2.4 Biometric Payments Forecasts – By Transactions

ES3.2.5 Biometric Payments Revenue Forecasts

ES4: Summary

## Market and Technology Analysis

Introduction

How is Biometrics used For Payments?

Introduction

Major Trends

Biometric Payment Models

Decentralized Biometric Payment Model

Centralized – Cloud-Based – Biometric Payment Model

Market Drivers and Barriers

Market Drivers

Market Barriers

Financial Services and Payments Biometric Regulation and Technology Standards

Introduction

Regulation

Data Protection Regulation

European Union (EU) General Data Protection Regulation (GDPR)

USA Data protection Regulation

California

Illinois

New York

Texas

Washington

Asia-Pacific Data protection Regulation

Australia

Singapore

South America Data protection Regulation

Brazil

European Union Payment Services Directive (PSD2)

European Union Payment Services Directive (PSD3)

Anti-Money Laundering (AML) and Know Your Customer (KYC) Regulation

Industry Regulation / Guidelines

PCI-DSS

USA FFIEC

EMV

EMV 3D Secure

Bank of Korea

State Bank of Vietnam

## The Payments and Clearing Association of China

### Technology Standards

Introduction

ISO

ANSI

UK CESG

USA NIST

The FIDO Alliance

### Technology and Market Adoption

#### Market Adoption and Analysis

Introduction

Agentic AI – the future of payments?

Biometrics for Payment Onboarding – Identity Verification

Introduction

Adoption

China – Hong Kong

Biometric Payment Onboarding – Forecasts

Digital Onboarding – Suppliers

Insight – Interview with Nuggets

#### Biometric Payment Transactions

Payment Channels

#### Digital (eCommerce) Biometric Payments

Digital Wallets

Mobile OEM Payment Wallets

Apple Pay

Google Pay

Samsung Pay

Alternative Payment Providers of Digital Wallets

Payment Card Scheme Digital Wallets

Bank Payment Wallets

Payment Cards

Physical Biometric Payments

Retail

Mobile Payments – Digital Wallets

Biometric Payment Cards

How does the technology work

Advantages of Biometric Payment Cards

Biometric Payment Card Ecosystem

Biometric Payment Card Commercial Rollouts

Biometric Payment Cards – Insights

Biometric Payment Cards – Forecasts

POS Integration

Introduction

POS Integrated Biometric Payments – Market Adoption/Analysis

Dermalog – FingerPayment

Clear – Biometric Payment at USA Football Stadiums

PayEye – Iris-based Payments in Poland and Worldwide

Aadhaar Pay

Alipay “Smile to Pay”

WeChat Pay – Pay by Palm

Amazon One – Palm Biometric Payments

J.P. Morgan

Forecasts

Biometric ATMs (Cash Payments)

Introduction

Cash

## Palm-Vein

### Introduction

### Forecasts

Biometric Payment Forecasts – By Modality: Palm-Vein Sensor Shipments

Biometric Payment Revenue Forecasts – By Biometric Modality: Palm-Vein

### Technology Vendors and Service Providers

Amazon One

Fujitsu

Advantages and Disadvantages of Palm-Vein Biometrics

## Palmprint

### Introduction

### Forecasts

Biometric Payment Forecasts – By Modality: Palmprint

Biometric Payment Revenue Forecasts – By Biometric Modality: Palmprint

Redrock Biometrics

Advantages and Disadvantages of Palmprint Biometrics

## Forecasts

### Methodology and Assumptions

### Biometric Payments Forecasts

#### Introduction

#### Biometric Payments User Forecasts – By Payment Process

Biometric Payments User Forecasts – Digital Onboarding

Biometric Payments User Forecasts – Payment Transactions

Biometric Payments User Forecasts – Digital Transaction Users

Biometric Payments User Forecasts – Physical Transaction Users

Biometric Payment User Forecasts – Mobile Wallet Users at the Point-Of-Sale

Biometric Payment User Forecasts – Biometric Payment Card Users

Biometric Payment User Forecasts – Integrated POS Users

Biometric Payment User Forecasts – Total Physical Users

Biometric Payments User Forecasts – Biometric Fraud Management

Biometric Payments User Forecasts – Total (Combined) Users

Biometric Payments Forecasts – By Biometric Modality

Biometric Payments Forecasts – by Modality: Fingerprint

Biometric Payments Forecasts – by Modality: Voice

Biometric Payment Forecasts – by Modality: Face

Biometric Payments Forecasts – by Modality: Behavioral

Biometric Payments Forecasts – by Modality: Finger-Vein sensor Shipments

Biometric Payments Forecasts – by Modality: Palm-Vein sensor Shipments

Biometric Payments Forecasts – by Modality: Palmprint

Biometric Payments Forecasts – By Device

Biometric Payments Forecasts – by Device: POS Terminals

Biometric Payments Forecasts – by Device: Automotive

Biometric Payment Transactions

Biometric Payment Digital Onboarding Transactions

Biometric Payment Physical Transactions: By Integrated POS

Biometric Payment Physical Transactions: By Automotive

Biometric Payment Fraud Management Transactions

Total Biometric Payment Transactions

Biometric Payments Revenue Forecasts

Assumptions on revenue forecasts

Biometric Payments Revenue Forecasts – by Payment Process: Biometric Digital Onboarding (IDV)

Biometric Payments Revenue Forecasts – by Payment Process: Biometric Digital Transactions

Biometric Payments Revenue Forecasts – by Payment Process: Biometric Fraud Management

Biometric Payments Revenue Forecasts – by Biometric Modality: Fingerprint
